

# Senior Packaging Engineer

m/w/d, Aargau

This position is required to strengthen packaging engineering capacity for PPWR-related activities, packaging data management, portfolio screening, and cross-functional project execution. The role will act as a key interface between Packaging Development and its stakeholders, potentially involving SPS, Biologicals, F&P, testing activities.

**Start Date:** Sep 2026

**End Date:** 12-month contract (with the chance of extension)

**Workload:** 100% with 42h/week

**Location:** Münchwilen (AG)

**Workmodel:** Contracting

## Your responsibilities

- \* Ensures that all operations under direct control comply with our clients Health, Safety & Environment policies (CHMU-SID-0122, CHMU-SID-0282) and conform to the legal standard
- \* Acts as a role model in the area of responsibility
- \* Contributes to collaboration and interaction with other PT&E groups (Analytical, Application, Formulation Development, Formulation Engineering) and Logistics to support delivering the best product experience for customers
- \* Engages with external collaborators, including universities and suppliers, to support the application of science and technology
- \* Begins contributing to solving business challenges with guidance
- \* Prioritize tasks independently, managing time to meet deadlines
- \* Show initiative in identifying resource needs and seeking support as required
- \* Estimate project costs, evaluate supplier bids and monitor costs against budget
- \* Follow standard operational excellence procedures and participate in improvement initiatives within their scope of work
- \* Coordinate specific project components, collaborating with team members to ensure timely completion
- \* Monitor progress against defined milestones, identify potential issues and propose solutions
