

Senior Full Stack Developer (Frontend/Web Focus) m/w/d, Zürich

For our client based in **Zürich** we are looking for an **Senior Full Stack Developer (Frontend/Web Focus)** to strengthen their development team.

Your Responsibilities:

- * Develop and maintain modern, scalable web applications with a strong focus on Angular and TypeScript
- * Build responsive and user-friendly interfaces based on modern web development standards
- * Integrate and consume APIs and contribute to BFF/API-based architectures
- * Write clean, maintainable and well-tested code
- * Work with modern frontend technologies and development practices, including Storybook, Design Tokens, Tailwind and TanStack
- * Collaborate closely with developers, designers and other stakeholders in an agile environment
- * Contribute to technical decisions and continuously improve development processes and solutions
- * Depending on your experience, contribute to mobile application development using Ionic and/or Capacitor
- * Support CI/CD and automated delivery processes and, where relevant, contribute to cloud- and container-based environments

Your Profile:

- * Several years of professional experience in **TypeScript** developmen
- * Solid hands-on experience with **Angular**, ideally with recent version
- * Strong understanding of modern web application development, including API integration, responsive UI, testing and maintainable

cod

- * Experience with Ionic and/or Capacitor is a strong advantage, but not a mandatory requirement
- * A proactive, self-driven and independent working style
- * Strong communication skills and a collaborative, team-oriented mindset
- * Willingness to take ownership and contribute actively to the development team
- * Fluent in English

Additional Skills:

The following experience would be an advantage:

- * **Java or Kotlin** and **Spring Boot**
- * **CI/CD**, automated delivery pipelines and Infrastructure as Code
- * Cloud- and container-based environments
- * **BFF/API architectures**
- * **Keycloak and OIDC**
- * OpenShift and Helm
- * ArgoCD and Bamboo

Technology Stack:

Angular · TypeScript · Storybook · Design Tokens · Tailwind ·
TanStack · Ionic · Capacitor · Kotlin · Spring Boot · BFF · Keycloak ·
OpenShift · Helm · ArgoCD · Bamboo

Das klingt nach einer spannenden Position?
