

Test Analyst

m/w/d, Zürich

For our client in the financial services industry based in Zurich, we are looking for an experienced **Test Analyst (Fully Remote)**.

Your Responsibilities:

- * Estimate the effort required for manual and automated testing and align estimates with business stakeholders
- * Create and maintain test cases based on business requirements and user stories
- * Prepare and manage test data for functional and non-functional testing
- * Execute manual tests and document test results and defects
- * Analyze, track and document defects in close collaboration with development teams and business stakeholders
- * Analyze test coverage and identify opportunities for improvement
- * Support the selection and preparation of test cases for test automation
- * Assess risks and prioritize testing activities accordingly
- * Prepare test reports covering test progress, quality and risks
- * Support and advise business departments on testing activities and testing methodologies

Your Profile:

- * Proven experience in software testing, including test analysis, test design, test execution and defect management
- * ISTQB® Certified Tester Advanced Level – Test Analyst (CTAL-TA)
- * Basic knowledge of or initial experience with test automation, ideally using Tosca, is an advantage
- * Hands-on experience with test management and defect tracking tools such as Jira or ALM
- * Strong analytical, structured and quality-focused mindset
- * High level of accountability and ability to work independently in a remote/offsite environment
