

Senior Expert Quality Assurance

m/f/d, Aargau

For our client, we are looking for a Senior QA Specialist responsible for QC microbiology ensuring adherence to standards and compliance with GMP regulation in DPS.

Location: Stein

Contract duration: 6 months

Workload: 60%

Responsibilities:

- * Collaborate closely with cross-functional teams to work on growth projects as per site quality objectives and strategic goals. Ensure that project timelines and deliverables under the responsibility of QA/QC are fulfilled.
- * Provides guidance and quality oversight for QC.
- * Support growth projects and act as primary point of contact in QA for implementation of gLIMS (laboratory execution system).
- * Represents the QA support and guidance to the Quality Control (QC) department and ensures that GMP requirements are met and SOPs are followed.
- * Review and Approval of GMP relevant documents from quality control, including SOPs with focus on implementation of gLIMS.
- * Supervise and execute GMP compliance activities like changes (CRs), document management, non-conformities (DRs).
- * Write or revise SOPs in the area of expertise and be the owner of these documents.
- * Support QA for QC raw data review, as deemed required.
- * Meet internal and external guidelines regarding quality and safety (quality manuals, regulatory GMP guidelines, health authority guidance, SOPs, HSE, etc.)
- * Management and reporting of KPIs.
- * Perform/support inspections and audits as required.
