

Senior SAP QM Solution Architect (LIMS & Quality Automation) m/f/d, Basel-Landschaft

For our client in the Basel region, we are looking for an experienced, motivated, and open-minded **Senior SAP QM Solution Architect (LIMS & Quality Automation)**.

As part of a strategic digital transformation initiative, you will play a key role in shaping the future of quality assurance. In this position, you will design and develop innovative end-to-end processes for the automated handling of laboratory testing and quality certificates within the SAP environment.

Your responsibilities:

- * Analyze existing quality management and laboratory processes and define future-state processes for automated inspection lot and certificate handling
- * Develop a comprehensive business and IT blueprint for the integration of SAP QM with Laboratory Information Management Systems (LIMS) and external testing laboratories
- * Design automated processes for the receipt, validation and assignment of digital quality certificates (Certificates of Analysis / CoA) to SAP inspection lots
- * Create functional and technical specifications for interfaces based on APIs, EDI, IDocs and Web Services
- * Prepare and support the implementation phase, including SAP QM customizing, development support, integration testing and user acceptance testing
- * Plan and facilitate workshops with business stakeholders, laboratory partners and IT teams in an international environment
- * Advise project leadership and key stakeholders on solution architecture, process design and SAP QM best practices
- * Ensure a sustainable, scalable and future-proof solution architecture for digital quality assurance

Your profile:
