

Platform & Power BI Analyst

m/f/d, Basel-Landschaft

For our client in Basel, we are looking for an experienced **Platform & Power BI Analyst (Professional Level)**.

Your Tasks:

- * Develop, optimize, and maintain Power BI reports and interactive dashboards
- * Analyze business requirements and translate them into sustainable BI solutions
- * Model, prepare, and transform data from various data sources
- * Ensure data quality and continuously optimize existing data models
- * Manage and further develop the Power BI platform, including governance and permission concepts
- * Support business departments in data-driven decision-making through meaningful analyses
- * Optimize the performance of reports, datasets, and dataflows
- * Collaborate closely with business stakeholders, IT, and international teams
- * Document BI solutions and provide support to end users

Your Profile:

- * Bachelor's or Master's degree in Computer Science, Business Informatics, Data Analytics, or a comparable qualification
- * Experience in Business Intelligence or Data Analytics
- * Expertise in Microsoft Power BI (Desktop & Service), including DAX, Power Query, and data modeling
- * Proficiency in SQL and working with relational databases
- * Strong knowledge of Power Apps (Canvas Apps), Power Automate, and SharePoint
- * Proven ability in requirements gathering and business analysis
- * Good understanding of ETL processes and Data Warehousing
